

# eTwinning: Annual Christmas cards exchange

## Colegio Jesús Reparador. Burgos 2020

This is a very simple but nice project. We are going to send and receive Christmas cards among different schools from various countries in order to wish happy holidays and get in touch with different traditions and cultures of several foreign countries. We will send the cards through traditional post (they will know that we can communicate using different ways and not only Internet). - Students, supervised by their teachers, prepare cards, write wishes in English as the target language and also in their native language. - We can add some information about our Christmas traditions, our schools, our countries or even some small gift into the envelope. Whatever you want to share with us. - Photos of the cards making process, the received Christmas cards, videos singing Christmas carols... will be shown on a Twinspace.

### About the project

This is a very simple but nice project. We are going to send and receive Christmas cards among different schools from various countries in order to wish happy holidays and get in touch with different traditions and cultures of several foreign countries. We will send the cards through traditional post (they will know that we can communicate using different ways and not only Internet).

- Students, supervised by their teachers, prepare cards, write wishes in English as the target language and also in their native language.
- We can add some information about our Christmas traditions, our schools, our countries or even some small gift into the envelope. Whatever you want to share with us.
- Photos of the cards making process, the received Christmas cards, videos singing Christmas carols... will be shown on a Twinspace.

### AIMS

- Exchange information about Christmas traditions and greetings throughout Europe using mother tongue and English
- Make new friends
- Celebrate Christmas
- Involve the students in an encouraging and communicative activity
- Exchange Christmas cards
- Promote Arts

### WORK PROCESS

This is a simple, easy project. Students just need to make their own cards with "Merry Christmas and Happy New Year" inside written in their mother tongue and in English. They could also add more information like their age, the name of the school, the name of the city and something important about it. Schools are busy places everywhere, so we are starting to make the list of schools that would like to take part now. I will set up a Project on here once we have enough interest. If you want to send and receive lots of Christmas greetings from all over Europe, please get in touch. All I need is your school address and an e-mail address. Please post on here or e-mail me on: [mariaortega91@hotmail.com](mailto:mariaortega91@hotmail.com) The deadline for sending the cards will be the first week of December in order to get them before Christmas time.

### EXPECTED RESULTS

- Exchanging cards and greetings
- Having fun
- Each school will received Xmas postcards that will be decorating the hall
- Promote contact with different cultures and languages
- Engage students in fun and easy communicative activities with real children from around Europe
- Celebrate Christmas in a very cheerful and exciting way
- Share and communicate with teachers from different countries.
