

# THE GRINCH™

Christmas is getting closer and closer and there are many movies to choose from. One of them is "How the Grinch stole the Christmas". Even though people have seen the movie and know the story, they will still enjoy it as if they were watching it for the first time.

A movie to enjoy as a family. All the scenes are set in a fictional town called Whoville. It is full of residents who believe a lot in Christmas. Away from Whoville, high up in the mountains, lives the Grinch. He is the protagonist of this story and is a green creature who hates Christmas because as a child he was always lonely at Christmas.

The storyline is about that The Grinch has a twisted idea to ruin everyone's Christmas. One girl Cindy-Lou wants to speak to Santa as she has a special wish. Maybe she can make the Grinch's heart two sizes bigger.

The movie is spectacular in its visuals. There are colorful scenes and excellent structures, making Whoville really magnificent.

"The Grinch" is definitely an animated movie that it well-worth sitting down to watch with the family for the Christmas holidays. Great kids movie that grown ups can enjoy too.
