Go with your robot to the next mission. Your robot has to go forwards. Calculate the correct power and seconds.
Let's go!

2º MISSION

Your robot have to turn and go to mission 3.
Choose the motor and calculate the correct power and seconds.
Let's go!

Make your robot to turn, go to mission 4 and when it arrives, an image of a tree appears on the display.

.

Each mission is more difficult...
Good luck!

You have to get your robot to go to the next mission and play a sound of animal.

.

The last mission is:

- Enter in the red circle where it says "Almazán".
- Record a phrase about the environmer
- the robot repeats the phrase you have recorded.

Example: Save de planet!

If you have time...
return with your robot to the exit and
do the tour again.

This is the most difficult mission!!!
