The quiz activity enables a teacher to create quizzes comprising questions of various types, including multiple choice, matching, short-answer and numerical.
The teacher can allow the quiz to be attempted multiple times, with the questions shuffled or randomly selected from the question bank. A time limit may be set.
Each attempt is marked automatically, with the exception of essay questions, and the grade is recorded in the gradebook.
The teacher can choose when and if hints, feedback and correct answers are shown to students.
Quizzes may be used
As course exams
As mini tests for reading assignments or at the end of a topic
As exam practice using questions from past exams
To deliver immediate feedback about performance
For self-assessment
