COURSE : PROGRESSING TECHNOLOGY-ENHANCED TEACHING

Rationale

The MENTEP project developed TET-SAT, a new online tool for teachers to self-assess their technology-enhanced teaching, thanks to the participation of more than 7000 teachers from 10 countries to the project.

Would you like to be among the first teachers in Europe to try this new tool out – and actively contribute to improving it? This MOOC offers the possibility to test the new tool and to take advantage of concrete guidance and the possibility of exchanging teaching ideas and examples online with other teachers across Europe.

Participants need to have at least an intermediate level in English, as the course will be held in that language.

Objectives

1. To provide feedback and resources that can help improve technology-enhanced teaching.
2. To describe examples from their teaching to illustrate the five competence levels, from beginner to expert, of the tool.
3. To exchange with other teachers about concrete teaching examples using digital tools.

Contents

1.- Technological resources to improve technology-enhanced teaching.

2.- Teaching examples to illustrate the five competence levels, from beginner to expert, of the tool.

3.- To exchange with other teachers about concrete teaching examples using digital tools.

Competences

- ICT competence.
- Communicative competence in a foreign language.
- Career Professional Development.

Selection criteria

1.- In-service teachers working in schools supported by public funds of the Community of Castilla y León.

2.- In case the number of inscriptions is superior to the places available, there will be a draw which will take place the 9th of november at CFP Idiomas.

Methodology and evaluation

This MOOC is online and will run for a month with a total of 4 modules.

In a first step, the TET-SAT tool will provide feedback and resources that can help improve technology-enhanced teaching. As a second step, participants will be invited to describe examples from their teaching to illustrate the five competence levels, from beginner to expert, of the tool. On that basis, participants will exchange with other teachers about concrete teaching examples using digital tools. After the course, a selection of teaching examples will be linked to TET-SAT, to make it even more relevant for teachers in Europe

Time
The course will start the 13th of November 2017 and will end the 13th of December 2017

Inscription
Inscription will start the 24h of October until the 8th of November. You can sign in for the course in the CFPI webpage.

Certification
Participants will get a certification of 15 hours, 1.5 credits, by CFP IDIOMAS if they complete the activities proposed and the tasks are evaluated positively.

Places
100

Organiser
Centro de formación del Profesorado en Idiomas de Castilla y León. The course will be done through the European Schoolnet platform

Teacher trainer in charge of the activity
Fco Javier Magdaleno Fuentetaja
